

Longitudinal Reports and Export User Guide

This guide provides instructions on viewing, printing, downloading, and exporting Longitudinal Reports in PearsonAccess Next.

Note for 2019-20: Due to COVID-19, Longitudinal Reports are not available as no summary data at the school, district, or state level are available for 2020. Longitudinal Exports remain available as individual student results are available for 2020.

Note: The individual student information available in the secure PearsonAccess Next system is private student data. Ensure student data privacy is maintained when accessing, printing, or sharing information from the system.

Overview

Longitudinal Reports provide a graphical display of historical results at the student, school, district, and/or state level for review or comparison by administration (test and year), overall and average scale score, achievement level, strand performance detail, and/or student group.

Longitudinal reports are currently available for the following test administrations:

- MCA 2011-2019*
- MTAS 2011- 2019*
- MCA Modified 2011–2014
- OLPA 2014-2017

* Longitudinal Reports are not available for 2020 due to COVID-19.

Access by User Role

Users with the District Assessment Coordinator (DAC) or Assessment Administrator (AA) role in PearsonAccess Next have access to longitudinal reports.

Report Access by User Role

User Role	Longitudinal Reports	Longitudinal Export	
District Assessment Coordinator	Yes, for 2019 and earlier	Yes, for 2020 and earlier	
(DAC)			
Assessment Administrator (AA)	Yes, for 2019 and earlier	Yes, for 2020 and earlier	
Test Monitor/Data Entry	No	No	
MTAS Score Entry	No	No	

Access Longitudinal Reports

1. From the Home page, under **Reports**, select **Longitudinal Reports**.

2. The test administration selected on the homepage is the default view. Under **Create Reports**, use the dropdown menus next to each field to select a different test administration and/or organization, as needed. Then select **Apply**.

Note: The MCA and MTAS 2020 test administrations are not available for selection due to COVID-19.

Data available depends on the organization assigned to the user or by the level of organization selected, whether district or school. The following sections outline some ways to view results in Longitudinal Results.

View Summary Results by Subject (2019 and earlier only)

- Under COMPARE, the Parent Organization and Dashboard View is the default view. When selected, Parent Organization provides results for both the organization and its parent organization for comparison.
 - The parent organization for a district is the state.
 - The parent organizations for a school are the district and state.

Dashboard View provides a high level summary chart by achievement level (Does Not Meet Standards, Partially Meets Standards, Meets Standards, and Exceeds Standards) by test administration at the subject level.

- The graph displays student performance by percentage.
- Hover over the percentages on the bar graph to see student counts.

Note: Grade is a required field. At least one grade must be selected.

▼ FILTER		Clear
Grade *		
Grade 03 Grade 06	1	Grade 10
🖉 Grade 04 🛛 🖉 Grade 07	•	Grade 11

Apply		

Note: If a chart for a selected organization has no data, verify the selected grades are applicable for that organization. For example, if an elementary school and grade 11 are selected, then there would not be grade 11 data available. Select the applicable grade(s) for the organization(s) selected.

Options to Compare Results in Longitudinal Reports (2019 and earlier only)

 Parent Organization and only one other radio button can be selected at a time (Dashboard View, Overall Results, Administrations, or Strand Performance Details).

Note: If a chart for a selected organization has no data, verify the selected test is applicable for that organization. For example, if a high school and grade 3 reading are selected, then there would not be grade 3 reading data available under Overall Results. The school column within the graph would be blank and no student results are found. Select the applicable test for the organization(s) selected.

a) If Parent Organization and Dashboard View are selected in the COMPARE box, subject level results are displayed in comparison to the parent organization(s) results.

 b) If Parent Organization and Overall Results are selected in the COMPARE box, results for the selected test (e.g. Grade 3 Reading MCA) are displayed in comparison to the parent organization(s) results.

c) If Parent Organization and Administrations are selected in the COMPARE box, results for the selected administration and any previous administrations will appear for the selected organization and any parent organization(s).

d) If Parent Organization and Strand Performance Details (MCA 2016 and forward) are selected in the COMPARE box, results will appear by strand for the organization and any parent organizations.

 To remove the comparison to the parent organization(s) and compare other data, under COMPARE, deselect the checkbox to the left of Parent Organization and select **Apply**.

3. Select the **Back** button to go back to previously viewed screens.

4. Select **Clear** to remove current selections in the COMPARE box, and start selection process again if different comparison results are desired.

View Overall Results For a Specific Test by Achievement Level

 Change the selections under COMPARE to Overall Results and Parent Organization and select Apply to display a summary of results for a specific test (grade and subject) for your school or district and state.

Note: Due to COVID-19, this is not available for 2020.

- Overall Results is a summary chart by achievement level (Does Not Meet Standards, Partially Meets Standards, Meets Standards and Exceeds Standards) for a specific test (e.g. Grade 3 Reading MCA).
- Grade is no longer available under FILTER as results included are for a specific test (grade and subject).
- The chart displays student performance by percentage. Hover over the percentages to see student counts.

2. To change the test data displayed, select the dropdown next to the current test in the upper left and then select a different test.

3. Your view, whether at the district or school level, will depend on your organization (based either on your user role organization or the school selected).

District level view: At the district-level view, a list of schools in the district will display below the performance level chart. Results for each school include the Average Scale Score and the number of students and percentage at each performance level (Does Not Meet Standards, Partially Meets Standards, Meets Standards, and Exceeds Standards). Note: Due to COVID-19, this is not available for 2020.

• Select a school name to view school level performance data and comparisons.

School (40)				
Organization Name	Avg Scale Score	Does Not Meet Standards	Partially Meets Standards	Meets Standards
SAMPLE ELEMENTARY SCHOOL (9999-99-999)	336.4	80 56%	29 20%	30 🗖 21%
SAMPLE ELEMENTARY SCHOOL 1 (9999-99-989)	334.1	19 66%	6 21%	3 🚺 10%
SAMPLE ELEMENTARY SCHOOL 2 (9999-99-979)	359.8	13 📕 12%	18 🚺 17%	32 30
SAMPLE MIDDLE SCHOOL (9999-99-998)	345.4	28 33%	25 29%	24 🚺 28
SAMPLE MIDDLE SCHOOL 1 (9999-99-988)	354.9	17 🚺 23%	11 🚺 15%	22 29
SAMPLE HIGH SCHOOL (9999-99-997)	336.1	28 58%	8 17%	10 21%

School level view: At the school-level view, a list of the students in the school will appear below the performance level chart.

Note: Due to COVID-19, this is not available for 2020.

- Select the information icon to the right of the student's name to view available historical test results for that student.
- Historical Student Data opens in a pop-up window; for more information view the <u>Historical Student Data User Guide</u> (PearsonAccess Next > Reporting Resources > Additional Reporting Resources).

Note: A limited number of completed tests with valid scores for individual students are available in Historical Student Data for 2020.

- Select the arrow to the left of the test administration name (e.g. MCA 2018) to view test details for a specific test.
- Select **Print** to download the student's complete test history. Print the results using your browser's print function.
- \circ ~ Select Close when finished.

View Results by Administrations (2019 and earlier only)

- 1. To compare results for the selected (or assigned) organization across all administrations.
 - Under COMPARE, deselect the radio button next to Parent Organization and select the radio button to the left of Administrations. Then select **Apply.**

• Results for all available administrations for the test selection will appear for the selected organization.

View Results by Strand Performance Details (2019 and earlier only)

- 1. Starting with the MCA 2016 administration, Strand Performance Details are available as a comparison selection.
 - Under COMPARE, deselect the radio button next to Parent Organization and select the radio button to the left of Strand Performance Details. Then select **Apply**.

Strand Performance Details include content area strand and/or substrand results and are categorized as: Below Expectations, At or Near Expectations, or Above Expectations.

• If viewing at the school level, strand performance details for individual students will display.

 Historical Student Data opens in a pop-up window; for more information view the <u>Historical</u> <u>Student Data User Guide</u> (PearsonAccess Next > Reporting Resources> Additional Reporting Resources).

Note: A limited number of completed tests with valid scores for individual students are available in Historical Student Data for 2020.

- Select the arrow to the left of the test administration name (e.g. MCA 2018) to view test details for a specific test.
- Select **Print** to download the student's complete test history. Print the results using your browser's print function.
- o Select **Close** when finished.

Filter Results for Reports (2019 and earlier only)

In addition to the Grade filter described earlier, there are other filters that can be applied: Gender, Race / Ethnicity, English Learner, and Special Education. Filters can be used alone or in combination along with the COMPARE selections.

- 1. As needed, select the down arrow at the top of the FILTER box to open the filter options.
- 2. Select the checkbox(es) for the filter(s) desired, and then select **Apply**.
- Results will appear based on the selected filter(s). To clear current FILTER selections, select **Clear** in the FILTER box, and start selection process again if different filtered results are desired. Select **Back** to review previously selected filtered views.

Note: Federal Race / Ethnicity data is not available for test administrations prior to 2014.

Download and Print Reports

Results generated through selections can be downloaded and printed at any time on the main Longitudinal Reports screen or on the specific student results screen.

1. For a PDF report of selected results on the Longitudinal Reports screen, select **Print**.

Note: Longitudinal reports are currently available for only the following test administrations:

- MCA 2011-2019
- MTAS 2011-2019
- MCA Modified 2011-2014
- OLPA 2014-2017
- 2. For a PDF report of an individual student results, select the Information icon to the right of the student name.
- 3. Select **Print** to download the student's complete test history. Print using your browser's print function.

Note: A limited number of completed tests with valid scores for individual students are available in Historical Student Data for 2020.

Longitudinal Export

The Longitudinal Export is available to download a spreadsheet of historical test results for all years available for all students currently active in the district.

New for 2020: The Longitudinal Export available for Spring 2020 includes two additional test codes for why a student did not participate: No Participation due to COVID-19 and Not Completed due to COVID-19. This section provides instructions on downloading and exporting results in PearsonAccess Next.

 From the Home page, under Setup, select Import / Export Data.
