User Account Management Timeline

SUMMER

Log in to PearsonAccess Next

- All new DAC accounts are created by Pearson 1-2 business days after receiving DAC information from MDE-ORG.
- Contact Pearson to enable or restore a DAC account.

Create, enable, and restore AA accounts so they can help manage other user accounts at their schools.

FALL

Export a list of existing user accounts to review accounts in PearsonAccess Next.

Delete accounts for staff no longer employed at the district or school.

Create, enable, or restore Technology Staff accounts.

- Confirm Technology Staff have accounts set up in the Training Center.

Reset user passwords and encourage users to log in to PearsonAccess Next.

- Logging in resets the disabled account timeline. Completing this step in fall ensures user accounts are active when testing begins.

WINTER

In the Training Management System (TMS), log in to Reports or Group Training under the "Admin" option with your PearsonAccess Next user account to ensure you have access.

- 💡 Tip: Contact Pearson if your PearsonAccess Next account has been active for more than 2 weeks and you do not have access to the "Admin" features.

Create new Test Monitor/Data Entry and MTAS Score Entry user accounts and verify all other user accounts are active.

- 💡 Tip: When updating many accounts, make changes by importing a file.

SPRING

Maintain user accounts during testing (e.g., resetting passwords, enabling accounts).

- 💡 Tip: When updating a small number of accounts, make the changes manually.
